vinaychahal02@gmail.com

- 3.5 years of experience translating user needs into market-driven products that **deliver tangible ROI**
- Ran user research, A/B tests and road-mapping for a mobile platform; experienced in CRM pipelines
- **Multidisciplinary thinker** & skilled at understanding what others find difficult & bridging those gaps
- **Led R&D** groups to build innovative, scalable and market-leading product features for digital growth

EXPERIENCE

Feb'25 - May'25 (4 months) (Internship) — **TheBinaryTree** | India
Assistant Product Manager

- Led Go-to-Market beta launch: defined user segments, messaging pillars, and rollout milestones
- Authored PRDs & designed Figma wireframes, using past coding expertise to align business targets
- Analyzed quantitative data from 50+ beta users to refine UI/UX, reducing onboarding drop by 20%
- Ran 12 user interviews; found 78% quit dictation due to errors, shaping the product's core engine
- Managed 50+ beta users via HubSpot CRM, tracking lifecycle and accelerating the product iteration
- Benchmarked product vs 3 rivals on accuracy, pricing, and UX; insights shaped the product strategy

Jul '23 - Sep '24 (14 months) — **eSec Forte Technologies**| Global Cybersecurity & IT Solutions Provider India
Senior Web Developer

- Spearheaded new feature delivery, from concept to launch, aligned closely with business objectives
- Defined technical specs from user needs, showing strong understanding of product's functionality
- Mentored 3 junior developers, highlighting leadership ability and communication skills in projects
- Fixed memory leak boosting system stability and **reducing resource usage by 30%** across servers
- Refined requirements with product managers, **cutting scope creep by 20%** and speeding releases
- Boosted system **efficiency by 90%**, resolving critical issues in large-sized PDF generation processes

Jul '21 - June '23 (24 months) — **Compro Technologies** | Enterprise Software Development & E-Learning Solutions Firm India
Software Engineer

- Contributed to feature delivery on a 3M+ user college admissions platform across 4 release cycles
- Collaborated with cross-functional teams to align development with product goals and user needs
- Learned to translate user needs into impactful product features via active stakeholder collaboration
